

Monthly Indicators

July 2024

U.S. existing home sales fell 5.4% month-over-month and 5.4% year-over-year to a seasonally adjusted annual rate of 3.89 million units, with monthly sales down in all four regions, according to the National Association of REALTORS® (NAR). Higher mortgage rates, along with rising sales prices, have kept many prospective buyers on the sidelines, despite more home choices and less competition for those homes.

New Listings were up 3.2 percent for single family homes but remained flat for Condo/TIC/Coop properties. Pending Sales increased 40.5 percent for single family homes and 36.9 percent for Condo/TIC/Coop properties.

The Median Sales Price was up 10.3 percent to \$1,600,000 for single family homes and 10.0 percent to \$1,249,000 for Condo/TIC/Coop properties. Months Supply of Inventory decreased 26.3 percent for single family units and 5.0 percent for Condo/TIC/Coop units.

Home prices have maintained their upward trend across much of the country, even as sales slow and inventory improves. According to NAR, the national median existing-home sales price climbed 4.1% year-over-year to \$426,900 as of last measure, an all-time high. Meanwhile, total housing inventory increased 3.1% month-over-month to 1.32 million units heading into July, the highest level since 2020, for a 4.1-month supply at the current sales pace.

Housing Affordability Ratio

This index measures housing affordability for the region. For example, an index of 120 means the median household income is 120% of what is necessary to qualify for the median-priced home under prevailing interest rates. A higher number means greater affordability.

July

Year to Date
